Фильтрация результатов поиска по рецензируемым журналам

Фильтрация результатов поиска по темам исследований в рамках которых имеются публикации (например, темы «medical sciences» или «economics»)

Фильтрация результатов поиска по типу публикации (книга, журнал, книжная серия, отчет, новостная рассылка, аудиокнига, газета, база данных, сайт)

Фильтрация результатов поиска по издательствам

The screenshot shows the 'Full Text Finder' interface with a search for 'Science'. The search results are displayed in a list format. On the left side, there are several filter panels:

- Refine Results**: Includes 'Current Search' (Science) and 'Find all my search terms' (Science).
- Limit your results**: Includes a checkbox for 'Peer Reviewed Journals'.
- Subject**: Lists various subject categories with their respective counts, such as 'social sciences & humanities (general) (26,155)', 'social science / sociology / general (10,897)', 'science (9,712)', 'political science / general (9,121)', 'social science / general (7,947)', and 'political science / international relations / general (5,844)'. A 'Show More' link is visible below the list.
- Resource Type**: Lists various publication types with their counts, such as 'book (148,978)', 'journal (9,796)', 'proceedings (3,049)', 'book series (810)', 'report (770)', and 'audio book (102)'. A 'Show More' link is visible below the list.
- Publisher**: A dropdown menu for filtering by publisher.

The search results on the right show a list of publications, including:

- Science**: ISSN: 0036-8075, 1095-9203. Science (General). Search within Publication. Includes options for Full Text Access and various databases like Academic Search Ultimate, Advanced Technologies & Aerospace Collection, etc.
- Science**: MacMillan. ISBN: 978-0-333-31830-0, 978-1-349-06057-3. Includes options for Full Text Access and Springer Book Archive.
- Journal of Zhejiang University. Science**: ISSN: 1009-3095. Engineering. Search within Publication. Includes options for Full Text Access and EBSCO Open Access Journals.
- Science: Teaching School Subjects 11-19 (Teaching school subjects 11-19 series)**: By: Kind, Vanessa; Helen Pritt; Taber, Keith. Routledge. ISBN: 978-0-415-34283-4, 978-0-415-36358-7, 978-0-203-02075-3, 978-1-134-22681-8, 978-1-134-22683-2. Education (General). Includes options for Full Text Access and DOAB Directory of Open Access Books.
- Journal of King Abdulaziz University: Science**: ISSN: 1319-1012, 1658-4252. Science (General). Includes options for Full Text Access.

On the far right, there is a 'Publisher' filter panel with a dropdown arrow and a list of publishers with their respective counts:

- springer (17,037)
- palgrave macmillan ltd. (14,863)
- routledge (7,729)
- springer international publishing (6,608)
- springer berlin heidelberg (6,556)
- oxford university press (5,882)

A 'Показать больше' (Show more) link is located at the bottom of the publisher list.

The screenshot shows the 'Full Text Finder' search interface. At the top, there is a search bar containing the word 'Science' and a green 'Search' button. Below the search bar, there is a checkbox labeled 'Keep search limiters' which is checked. On the left side, under 'Refine Results', there is a section for 'Limiters' with a red dot next to 'Peer Reviewed Journals'. On the right side, the search results are displayed, with a green dashed box around the header 'Search Results: 1 - 20 of 6,456'. The first result is '1. Science' with ISSN: 0036-8075, 1095-9203. Below the result, there is a search bar for 'Search within Publication' and a list of 'Full Text Access' options: 'Academic Search Ultimate 01/05/1990 - present' and 'Advanced Technologies & Aerospace Collection 01/01/1988 - 12/23/2005'.

EDITORIAL

**Systemic equity in education**

Too often in higher education, the legacy of laws, policies, and practices that have systematically denied educational opportunities to Blacks is ignored, thereby perpetuating racial inequities. In the United States, higher education is a key route to career success and upward socioeconomic mobility. Unfortunately, this path is increasingly becoming most accessible to privileged communities. As the new president of Olin College of Engineering in Massachusetts, and as a woman of color, I am in a position to help unburden higher education from systemic racism and promote positive change that extends beyond academic boundaries. My parents instilled in me the importance of education for personal and familial uplifting as well as a means to obtain advanced degrees. Until *Brown*, most college-educated Blacks graduated from HBCUs. I eventually became the first Black student to get a doctorate in chemical engineering from Rice University; the fifth woman in the nation to obtain that degree; and the first Black woman in the country to hold a tenure-track position in chemical engineering. But it is discouraging that the challenges that existed along my journey remain challenges faced today by Black students interested in pursuing careers in science, technology, engineering, and mathematics. There is still a lack of diversity among faculty and students in engineering schools. This environment has negative consequences and feeds a vicious cycle. The dearth of Black faculty role models and mentors contributes to the underrepresentation of Black students. Structural and social barriers such as hostile climates, bias, and tokenism make it difficult to achieve a sense of belonging and limit career choices and opportunities for Black students and faculty, further perpetuating the persistent underrepresentation. Today, 3.9% of students in the United States who graduate with a bachelor's degree in engineering are Black. And only 4.1% of students who graduate with a Ph.D. in engineering

**"It's time to abandon the myth that students and faculty"**

**Gilda A. Barabino** is the president of Olin College of Engineering, Needham, MA, USA. [gbarabino@olin.edu](mailto:gbarabino@olin.edu)
