

## #IN\_CIRCULATION

Dear colleagues!

We invite you to join **Reading Challenge 10/10!** If you are a student or a staff member of HSE Moscow Campus and speak Russian, join the challenge from October 1, 2021 to July 31, 2022, read 10 books in 10 months and publish your reviews. First 10 people to finish the challenge will receive gifts provided by HSE Publishing House. To learn more, visit our [website](#).

### **New in Electronic Subscription**

**CSD-Enterprise** from Cambridge Crystallographic Data Center is a new special resource for chemists and physicists accessible through licensing agreement made by Russian Foundation for Basic Research. You can use this database to search, analyze, download and acquire additional information about structural formulas of chemical compounds. Search by ingredient names, their chemical formulas and graphic fragments of their structures. The database contains more than 1.2

million of organic, metalorganic and nonorganic compounds.  
Find user's manual here in [Russian](#) and [English](#).

The following trials are available to our patrons until **December 4, 2021**:

- **Journal of Visualized Experiments** is a unique multidisciplinary video-based journal. Each article is a video clip of an experiment or another process of obtaining results for the article, followed by written explanations and other materials. It includes articles on biology, chemistry, medicine, neurosciences and psychology,
- **American Mathematical Society**. The newest issues and complete archives are available for the following American Mathematical Society journals: *Journal of the American Mathematical Society*, *Mathematics of Computation*, *Transactions of the American Mathematical Society* and more,
- **World Scientific** is a multidisciplinary publisher with a special focus on physics, mathematics and other natural sciences. The trial features more than 120 publications including *Fractals*, *International Journal of Modern Physics (A-E series)*, *Modern Physics Letters (A-B series)*, *Bulletin of Mathematical Sciences* and more. The newest issues and archives until the 2000s are available,
- **Brill** is notorious for its journals on socio-humanistic sciences: history, oriental studies, religious studies, Islamic studies, linguistics and international law. The trial includes all journals published by Brill,
- **de Gruyter**. Approximately 350 journals on a variety of topics are available. The most notorious ones are *Theoretical Linguistics*, *Clinical Chemistry and Laboratory Medicine*, *Fractional Calculus and Applied Analysis*, *Journal of Numerical Mathematics*, *Nanophotonics*. Roughly 60% of the publications are in English, others are in German,
- **Royal Society of London**. The newest issues and complete archives are available for the following Royal Society of London Journals: *Philosophical Transactions (A and B series)*, *Proceedings of the Royal Society (A and B series)*, *Biology Letters*, *Journal of the Royal Society Interface*, *Notes and Records* and more.

You can find these databases on [our website](#).

**ЭКОНОМИСТЫ  
О РЕВОЛЮЦИИ  
1917 ГОДА**

**Экономисты о революции 1917  
года: сборник статей  
2021**

*печатная книга*

Произошедшая в России в 1917 году революция и ее последствия во многом определили развитие всего мира в XX веке. О ее причинах, характере, временных границах и последствиях спорили и продолжают спорить историки, экономисты, политологи, социологи. В сборнике представлены оценки, которые давали экономическим факторам и последствиям революции как экономисты, жившие в то время, так и современные исследователи. Представлена вся палитра мнений о революции: включены работы как большевиков, так и их критиков – от анархистов до монархистов.

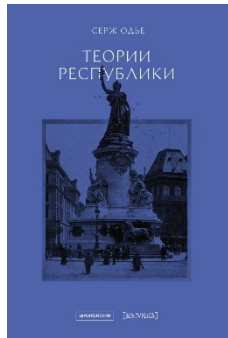

**Burning the Books: A History of  
Knowledge Under Attack**

R. Ovenden

2020

*printed book*

Opening with the notorious bonfires of 'un-German' and Jewish literature in 1933 that offered such a clear signal of Nazi intentions, the book takes us on a 3,000-year journey through the destruction of knowledge and the fight against all the odds to preserve it. Richard Ovenden, director of the world-famous Bodleian Library, explains how attacks on libraries and archives have been a feature of history since ancient times but have increased in frequency and intensity during the modern era. Libraries are far more than stores of literature, through preserving the legal documents such as Magna Carta and records of citizenship, they also support the rule of law and the rights of citizens. Today, the knowledge they hold on behalf of society is under attack as never before.

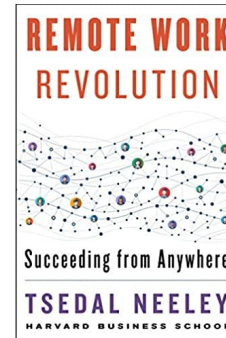

## Теории республики

С. Одье

2021

*печатная книга*

Республиканская идея еще с начала 1980-х годов занимает в публичных обсуждениях главное место. В книге современного французского философа Сержа Одье предлагается исторический и концептуальный анализ, позволяющий прояснить глубинный смысл этой идеи. Вы узнаете, как трансформировалась эта идея от Макиавелли до теоретиков Третьей республики. Сегодня республиканизм лежит в центре новых дебатов. Исследуя основные политические принципы нашего времени, автор проводит сравнение современных представлений о смысле и будущем республиканской идеи.

## Remote Work Revolution: Succeeding from Anywhere

T. Neeley

2021

*printed book*

The massive transition brought on by Covid-19 has forced companies to rapidly advance their digital footprint, using cloud, storage, cybersecurity, and device tools to accommodate their new remote workforce. Experiencing the benefits of remote working – including nonexistent commute times, lower operational costs, and a larger pool of global job applicants – many companies, including Twitter and Google, plan to permanently incorporate remote days or give employees the option to work from home full-time. But virtual work has its challenges. Employees feel lost, isolated, out of sync, and out of sight. Managers want to know how to lead virtually, how to keep their teams motivated, what digital tools they'll need, and how to keep employees productive.

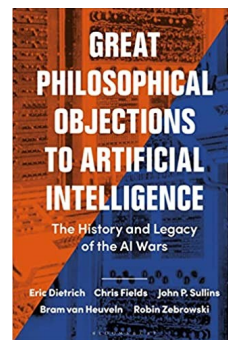

## Япония эпохи Мэйдзи

К. Хирн

2021

*печатная книга*

Англо-ирландско-американский востоковед и писатель Лафкадио Хирн прожил удивительную жизнь. Родился в Греции, вырос в Ирландии, начал карьеру в США, где в эпоху узаконенной расовой сегрегации взял в жены чернокожую женщину, жил на Мартинике, изучая обряды вуду, а затем уехал в Японию и остался там навсегда, стал профессором Токийского университета, принял японское имя Коидзуми Якумо и женился второй раз на дочери самурая. Приезд Хирна в Японию пришелся на период Мэйдзи, названный так по девизу правления императора Муцухито (1868 – 1912 годы). Это было время, когда Япония, отказавшись от самоизоляции, начала превращаться в мировую державу.

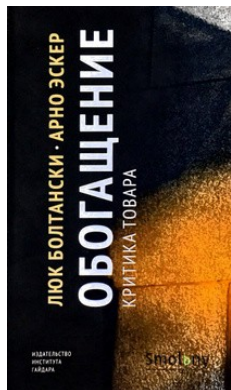

## Great Philosophical Objections to Artificial Intelligence: The History and Legacy of the AI Wars

E. Dietrich, C. Fields, J.P. Sullins, B. Van Heuveln, R. Zebrowski

2021

*printed book*

This book surveys and examines the most famous philosophical arguments against building a machine with human-level intelligence. From claims and counter-claims about the ability to implement consciousness, rationality, and meaning, to arguments about cognitive architecture, the book presents a vivid history of the clash between the philosophy and AI. Tellingly, the AI Wars are mostly quiet now. Explaining this crucial fact opens new paths to understanding the current resurgence AI (especially, deep learning AI and robotics), what happens when philosophy meets science, and the role of philosophy in the culture in which it is embedded.

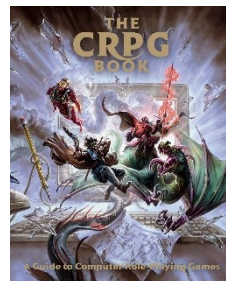

### **Обогащение: критика товара**

Л. Болтански, А. Эскер

2021

*печатная книга*

Авторы воссоздают преобразование капитализма в Западной Европе начиная с последней четверти XX века, которое отмечено деиндустриализацией и усилившейся эксплуатацией ресурсов. Размах этого преобразования обнаруживается лишь при сближении областей, которые зачастую рассматриваются по отдельности: искусства, особенно пластические, культура, торговля антиквариатом, создание фондов и музеев, индустрия роскоши и туризм. Все они основаны на эксплуатации прошлого.

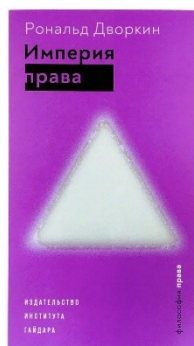

### **The CRPG Book: A Guide to Computer Role-Playing Games**

F. Pepe

2021

*printed book*

Spread over more than 500 pages, the book reviews over 400 seminal games from 1975 to 2015, covering the role-playing classics we all know and love such as Ultima, Wizardry, Fallout and Mass Effect all brought to life with vibrant and engaging in-game images. Each entry also shares articles on the genre, mod suggestions and hints on how to run the games on modern hardware. The book is completely by written by fans, AAA developers, indies, journalists, modders and industry personalities such as Chris Avellone, Ian Frazier, Scorpia, Ferhegón, Richard Cobbett, Brian Psychochild Green, Durante, George Weidman and Tim Cain, to name but a few.

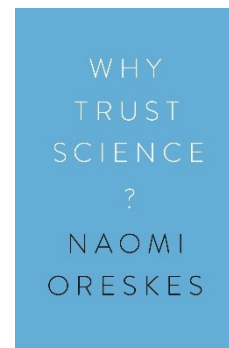

### Империя права

Р. Дворкин

2021

*печатная книга*

В книге автор представляет мастерское объяснение работы англо-американской правовой системы и принципов, на которых она основана. Он утверждает, что главная задача права состоит в обеспечении того, чтобы политическое сообщество действовало последовательным и принципиальным образом по отношению ко всем его членам. Дворкин систематически демонстрирует, что его концепция политической и правовой целостности является ключом к англо-американской правовой теории и практике.

### Why Trust Science?

N. Oreskes

2021

*printed book*

Do doctors really know what they are talking about when they tell us vaccines are safe? Should we take climate experts at their word when they warn us about the perils of global warming? Why should we trust science when our own politicians don't? In this landmark book, Naomi Oreskes offers a bold and compelling defense of science, revealing why the social character of scientific knowledge is its greatest strength – and the greatest reason we can trust it.

## News

On **October 6**, HSE Library's chief analyst Andrei Fedorov gave two lectures for students attending Master's programmes Statistical Modelling and Actuarial Science and Statistical Analysis in Economics. The lectures [included](#) analysis of Library's electronic resources subscription model, content and functionality of information platforms, tools for searching and processing search results and remote access management. [Contact us](#) to sign up for a lecture or a workshop.
